

EXOPLANETS

ATMOSPHERES TO ARCHITECTURES

NINTH ANNUAL

GIANT MAGELLAN TELESCOPE COMMUNITY SCIENCE MEETING

This meeting will bring together observers, theorists, and instrumentalists to share recent results and future plans across the field of exoplanet science, including planetary system formation and evolution, demographics of planets and systems, interiors, atmosphere, biosignatures, and astrobiology.

INVITED SPEAKERS

Daniel Apai Univ. of Arizona **Rebecca Bernstein** GMTO
Courtney Dressing UC Berkeley **Jane Huang** Univ. of Michigan
Eve Lee McGill Univ. **Jared Males** Univ. of Arizona **Victoria Meadows** Univ. of Washington
Megan Mansfield Univ. of Arizona **Gijs Mulders** Univ. Adolfo Ibáñez **Diana Powell** CfA | Harvard & SAO
Leslie Rogers Univ. of Chicago **Lauren Weiss** Univ. of Notre Dame **Luis Welbanks** Arizona State Univ.

NO CONFERENCE FEE

Partial travel support is available for grad students and postdocs.

SEPTEMBER 6 – 8, 2023

InterContinental Washington D.C. – The Wharf

Details and registration at
